

# MMT-DUNCHA

## AIRCRAFT – NACELLE / LATCH HOUSING

### INFO

AIRBUS – A350 Model Application

- Nacelle System Components (Engine Structure)
- Component in Approval
- Customer: Collins Aerospace
- Class-1 Component: High Tensile Requirement

### TECHNICAL DATA

Machine: 3D MP / arc405  
 Material: Ti6Al4V / Wire  
 Weight (Net): 1.10 Kg  
 Welded Vol: 3.50 Kg

### BENEFIT

- Material Saving  
 “Conventional-25 Kg vs “3D MP- 3.50 Kg”
- Machining Cycle Time Reduction
- Machining Tool Consumption Reduction
- Flexibility for Design Update

### SUMMARY

- Material Save
- Cost Save
- Quick Lead Time
